

The audio loops and audio samples from www.soundtrackloops.com (and Soundtrack Loops™) remain the property of its manufacturer Soundtrack Loops™ (Collectively, “Licensor”) and are licensed to you as the original end-user (“Licensee”), on a non-exclusive basis, for use subject to the provisions below.

(A) The sounds in a category of “Demo Songs”:

Demo songs, songs composed by our team to display a demonstration of sounds in a sound pack. They remain intellectual property of Soundtrack Loops (manufacture/composer). These exact arrangements are not available for use in other works and a license for Soundtrack Loops™ demo songs is not available to the end user. The loops and samples agreement does not apply to the demo songs found on the Soundtrack Loops™ site and on Soundtrack Loops™ distributor sites. Soundtrack Loops demo songs are arrangements composed to demonstrate sounds from a single sound pack and they are not available to you to use as an edited segment or as a whole. The end user may NOT sell, copy, or distribute the Soundtrack Loops™ demo songs. You may however use our loops and samples to create your own original arrangements as this is the sole purpose of our products. You may use your new arrangements in video games, commercial music releases, movie scores, advertisements, and remixes.

(B) The sounds in a category of “Loops and Samples (sounds)”:

The Licensee may use Soundtrack Loops sounds in combination with other sounds in music productions to create something new and unique. Usage includes soundtracks, video games, radio/TV programs, advertisements, computer games, multimedia presentations, public performances, and other purposes within new original musical compositions. Licensee can also use Soundtrack Loops content as sound effects in games and synchronization to video.

The Licensee may modify the sounds and may use the sounds for commercial purposes as part of a musical composition with other sounds and or as sound effects/cues.

The Licensee MAY NOT use the sounds in isolation as sound effects or as loops (i.e. a sequence of musical events) in any competitive products that are sold or re-licensed to multiple third parties such as: virtual instruments, sample packs, sync music subscription services, or A.I. (artificial intelligent) generated music services without additional written permission from Soundtrack Loops. If you have any questions about this or require additional licensing options for such things please contact us as we do offer licensing options and pricing for this. Creating a music library with our arrangements and demo songs is prohibited. You may however use our loops in a mix of other loops and performances / instrumentation to make your own original arrangements for sync purposes ie television placements and

advertisements. All royalty free. Check with your publisher or agent as using loops in said arrangements is often times NOT allowed in their agreements. The idea here is to not simply recreate our demo songs and try to turn them into personal profit. Use our sounds to make something new and original for this purpose.

This license expressly forbids resale, re-licensing or other distribution of the sounds, either as they exist or any modification thereof. You cannot sell, loan, rent, lease, assign, upload to or download from any server, or transfer all or any of the enclosed product to another user, or for use in any competitive product such as hardware instruments, virtual instruments or sample packs. You may however create new content with our sounds and then sell that content to a third party as part of a work for hire for example video game music. If you have any questions about this please contact us.

Licensor will not be responsible if the sounds does not fit the particular purpose of the Licensee.

(C) The music in a category of "STEMS (for Native Instruments : Traktor)":

The Licensee may use Soundtrack Loops STEMS in combination with other sounds in music productions to create something new and unique. Usage includes personal use and public performances but can not be used for monetisation.

The Licensee MAY NOT use the STEMS in isolation as sound effects or as loops (i.e. a sequence of musical events) in any competitive products that are sold or re-licensed to multiple third parties such as virtual instruments, STEMS, or sample packs.

You may use our loops and samples in a new original composition royalty free. You may mangle and modify the sounds and use them in your original music royalty free. You may monetize and sell your new compositions made with our sounds. You may create sound effects and cues for video games and TV. You may create new original songs with the sounds and sell the songs BUT be aware that some loops may be used by others and can get flagged by content ID if you don't create something unique from the loop set. This is the unfortunate nature of content ID. We have the ability to quickly get your channel in the allow list to prevent any complications. Please contact us with any questions.

Youtube and Content ID. We Soundtrack Loops™ have the right to publish demos of our products on Youtube. We can claim copyright ownership because we are the copyright holders of these compositions and arrangements. Our sounds are licensed to you to use royalty free in your works. This means that you don't have to pay us royalties to use our sounds BUT we have the right to monetize our demo songs on Youtube

as the copyright owner. If for some unexplainable reason Youtube content ID flags your content containing our sounds we can have your page added to the "allow list "which means you can publish your song and monetize it BUT if your arrangement is too close to the original you may run into a snag as other users will be using the same loops and it is possible they will try to claim ownership but don't worry we have a direct contact at AdRev and can get it sorted typically within 24 hours. Youtube content ID has created many problems for content creators. This is why it is important to alter our loops and arrangements and change them to make them your own. We are on your side so please contact us if you have any questions or need allow listing on your page.

This is a general license which covers all Soundtrack Loops™ products if in doubt please contact us.
